High School Programs

Every high school can now take advantage of the Award-Winning SAT & ACT curriculum offered by Solutions on its own campus on a schedule suitable for its students. Not only do students receive an SAT / ACT Course far superior to what others can provide, but **the school gets a portion of the proceeds.**

1a) On-Site SAT / ACT Discounted FULL Course

If a minimum of 10 students is met, we can provide the FULL-LENGTH SAT Course. With 20 or more students, the price drops.

The Parents' Club or Academic Boosters is responsible for booking the classrooms at their school site and making students aware of the course via email newsletters, daily announcements, and the college and career center.

1b) On-Site SAT / ACT Discounted "EXPRESS" Course

We can also customize the curriculum to fit any time frame. Shorter courses are less effective, but may be suitable for those on a budget.

2 of 2

2) FREE SAT / ACT Introductory Lesson & Study Tips Workshop

1.5 hours

(PTA/ Academic Boosters reserves library or cafeteria)

3) Practice SAT or ACT at your high school

4.0 hours

We administer the exams, score them, then provide feedback and suggestions.

Unlike other companies that give fake "harder" initial SATs or ACTs which give lower scores, we use the REAL tests.
